Projected Average Retail Common Equity For the 12 Months Ending December 31, 2009		\$4,454,270,493
Projected Retail Net Income For the 12 Months Ending December 31, 2009		\$555,859,502
Projected Retail Return On Average Common Equity For the 12 Months Ending December 31, 2009		12.48%

The Common Equity as of July 31, 2009 (Actual) was adjusted using net income, payment of Common Stock and Preferred Stock dividends, Capital Contributions, and Other Adjustments from the Company's 2009 Budget. The average common equity is a 12-month average using actual and budgeted data. The average retail common equity (RCE) was calculated using an estimated retail separation factor of 88.70%. The retail net income (RNI) for average common equity was calculated by using actual data for the seven months ended July 31, 2009, and then adding five months of budget data for August through December 2009. The Other Adjustments added to projected common equity is the result of the Company adopting FASB Statement 123 (R), which requires the reporting of stock option expenses.

The Forecast is subject to change due to uncertainties associated with weather, customer usage patterns, and economic conditions across the state.
